

Lindsay S. Smith

PRACTICE EXPERIENCE

L. Smith Industries

May 2013 - Present

Architectural Design Consultant

I offer Conceptual, Schematic, and Design Development and services at a minimum. This includes complete site, floor, elevation, and section drawings, developed to the appropriate level of detail at all phases. My process often starts with a holistic approach, imagining and presenting a design in multiple ways. I have the capacity to work solo or as part of a design team, managing and working with contractors, and taking a project from conceptual design to completion.

studioMLA - Michael Lindstrom Associates, Architects

November 2007 - May 2013

Project Manager

Design & project management of child care centers
Project documentation and coordination
Construction administration and management

Projects:

Bright Horizons at Mass Ave. - Renovation of a single-story stand alone Italian restaurant into a 10,000 SF child care center serving Infant, Toddler and Preschool children in Cambridge, MA.

Jamaica Plain Family Care Center - New construction of a multi-story stand alone child care and community center in Jamaica Plain, MA.

Brookline Teen Center - Renovation of a two-story stand alone auto-body garage into neighborhood youth center, serving teens of all ages local to the Brookline, MA area. Program includes game center, cafe, music room gymnasium and bowling alley.
